

Amendments to the Specification

Paragraph [0006], located on page 3 of the Specification, is replaced by the following paragraph:

[0006] In some implementations, articles of manufacture are provided as computer program products. One implementation of a computer program product provides a computer program storage medium readable by a computer system and encoding a computer program for version enforcement. ~~Another implementation of a computer program product may be provided by encoding the computer program to establish a secure network connection.~~
